

BOHLER UDDEHOLM AFRICA (PTY) LTD

Health, Safety & Environment Policy

2010/03/18

Bohler Uddeholm Africa is committed to health, safety and environmental excellence in all our activities.

The Health and Safety of every person exposed to our business - be it in the workplace or environment - is of imperative importance to the Management of Bohler Uddeholm Africa. In co-operation with our employees, Management will do everything possible to prevent accidents, injuries, diseases or release any products which could influence the environment.

Bohler Uddeholm Africa identifies controls and eliminates all unsafe acts and conditions to their best served ability. Management undertakes to inform at all levels of the Company including all visitors of all the hazards and products in the workplaces.

Bohler Uddeholm Africa employees maintain and use safety equipment where prescribed or where necessary according to the prescribed legal requirements. It is therefore understood by all that a safe work environment is provided and backed up by the relevant training and management systems.

Bohler Uddeholm Africa strives to continual improvement in all areas and departments within the Company such as Heat Treatment, Steel, Machining and Welding. It is therefore our commitment to ensure we conform to the Occupational Health and Safety Act.
