

# INDUSTRIAL KNIVES

## CHIPPER KNIVES

Made from high quality Tool Steel and are heat treated to your requirements. Used extensively in the wood industry as well as for high performance disc chippers in the wood chip industry.

## VENEER KNIVES

Bohler Uddeholm can supply the right veneer slicer and peeler knife for any timber, from the hardest tropical hard woods to knotty coniferous. Knife lengths of up to 6/M are manufactured using through hardening tool steel of the highest quality.

## SHEAR AND CHOPPER BLADES

Shear blades made from high alloyed tool steels, high speed steels and special alloys are manufactured up to 6/M in length. Tolerances, surface finish and hardness according to application and customer requirements.

## ROTARY KNIVES

Made from high alloyed tool steel, high speed steel and special alloys for shearing steel and non-ferrous metals. Our experience with a multitude of cutting lines allows us to supply you with added value, by working together in the design development and improvement of your cutting equipment

## SPACERS

Spacers are manufactured from hardened alloyed steel for high resistance to wear, with strict tolerances to guarantee a perfect fit.

All Industrial knives whether they are for cutting metal, veneer, paper, graphic industry, plastic, rubber and scrap metal are produced from the finest quality tool steels and are manufactured to customer requirements.
